HEALTH INSURANCE

What is health insurance?

Having good health is invaluable. Health insurance takes care of your medical bills and provides you with faster access to medical care that suits your needs.

Why do I need it?

Our public health system and ACC do a great job of supporting people who require urgent medical attention. However, relying on the public system for conditions that are non-urgent or non-accidental can result in long waiting lists and delayed treatment. Health insurance removes the worry around unexpected medical bills so you can focus on getting the right treatment and start your recovery sooner.

Key benefits of our health insurance

- No annual limit on the amount you can claim for surgeries
- Includes \$500,000 extensive cancer cover for every stage: from diagnosis, to treatment and recovery
- Available to children from birth with no underwriting required within their first three months of life
- Access to our Enhancement Pass Back Benefit. We're committed to keeping our insurance relevant for you. That's why any improvements we make to our AIA products in the future are automatically applied to your policy, offering you more at claim time
